**Innovative Coating Solutions, Inc.**

# Thermal Coat Insulating Spray

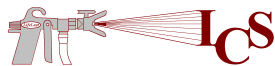

Thermal Coat applied by ICS **reduces condensation** inside pipes and cyclones that will eventually clog your system. Also recommended in settings where **burn safety** is and an issue for your employees. Also applied as a roof coating which **lowers** inside building **temperatures** and lowers **cooling costs** by as much as 25%! Excellent as a coating for pump housings that run hot!!

Safe to 450 degrees F

Easy to apply, easier if you have us do it!!

Any quantity sold to meet your needs, call us or email today!!
